

Paul Gilkinson Certified Safety Professional

Paul Gilkinson is a Certified Safety Professional, Certificate #11866

He also earned the Associate in Risk Management Designation, ARM.

He holds a Chartered Property Casualty Underwriter, CPCU, credential.

Paul is a seasoned safety professional that has worked with a broad range of companies from Fortune 100 companies to locally owned family businesses over the last 30+ years. He has depth of experience in helping companies reduce the risk of severe injuries in the workplace. His past consulting work includes Retail, Manufacturing, Transportation, Construction, and Distribution Centers.

Paul brings a unique set of analytical and technical skills to help customers develop solutions for business issues they face. From an Injury Prevention standpoint, technical skills include the use of the NIOSH Lifting Equation and Liberty Mutual Material Handling Tables. He can help you quantify the risk reduction and expected injury reduction related to a specific material handling intervention.

Paul Graduated from California Polytechnic University in Pomona with a degree in Chemical Engineering.

He returned to school and earned his MBA from Pepperdine University.

Paul can help safety professionals and leaders put together business cases for proposed safety improvements.

Cost reductions related to proposed changes can include:

- Injury Reduction
- Efficiency Gains
- Less Scrap or Damaged Products
- A better associate or customer experience (associate or customer feedback)
- A broader base of workers that are able to do the job (recruiting and retention)

Paul is a self described "Motorhead" and enjoys showing his 1970 Plymouth Cuda as well as going to track days and hockey games with his sons. Paul, his wife and two sons live outside Atlanta.
